SUMMARY

Frontend Developer specializing in **React**, **JavaScript**, **HTML**, **CSS**, and **Tailwind CSS**, with hands-on experience building clean, responsive, and user-focused web applications. Skilled in **component-based development**, **API integration**, **version control (Git/GitHub)**, and modern UI/UX practices using **Figma**. As a **Technical Content Contributor** at **CoderLegion**, I create beginner-friendly articles on React and JavaScript, strengthening my technical and communication skills. Passionate about delivering high-quality interfaces, improving user experience, and continuously learning through real-world projects and the 100 Days of Code challenge.

INTERNSHIP EXPERIENCE

Web Developer Intern – Kodbud

Tech Stack: HTML, Tailwind, JavaScript, Git/GitHub

- Developed and deployed [Nature Hikers](#), a client-facing website that improved the brand's digital presence and user engagement.
- Built a [personal portfolio](#) website showcasing projects, UI designs, and interactive elements.
- Implemented responsive layouts, reusable components, and clean design patterns.
- Worked with Git/GitHub for version control and followed structured workflows.
- Collaborated on UI/UX improvements to enhance page speed, consistency, and readability.

Technical Content Contributor — CoderLegion (Nov 25 - Present)

Tech : React, JavaScript, Web Development

- Write beginner-friendly articles on React, JavaScript, and frontend development
- Break down complex concepts into simple guides for new developers
- Share practical mini-projects, API tutorials & hands-on examples
- Contribute to a growing developer community through technical writing
- Strengthen understanding of React by teaching concepts with clarity

PROJECTS

Netflix Clone

- Built a full-featured, responsive [Netflix clone](#) using HTML, CSS, and JavaScript. Implemented user authentication, dynamic browsing, and modern UI/UX practices.

Travel Blog

- Launched a [Rajasthan Travel Blog](#) with mobile-first layouts, interactive elements, and accessibility. Focused on web standards and engaging design.
